The bush axe has a double beveled blade which tapers down to a thin durable cutting edge enabling it to slice easily through young, springy wood which would merely bend away from the impact of a conventional axe head. It's the ideal axe for many woodland jobs—removing undesireable growth in reforestation areas, clearing and cutting trails, preparing back-swaths in fighting forest fires, limbing trees, and many other uses. Packed 1 per carton.  Handle Wt. Lbs. No. Length Each PRICE  1 28 1 7/8 EA05T30\$7.95 ea  EXTRA BUSH AXE BLADES—Packed 6 per carton. Size Wt. Ozs.	604	3 3/4 5 5/6	EA09T14 EA08T70 \$13.05 ea
[F] SANDVIK BUSH AXE—This lightweight tool with replaceable Swedish charcoal steel blade and fitted with an American hickory handle is the answer for cutting brush and saplings with one or two hands easier, faster and safer than an axe. The bush axe has a double beveled blade which tapers down to a thin durable cutting edge enabling it to slice easily through young, springy wood which would merely bend away from the impact of a conventional axe head.
